### EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: The prior art fails to disclose or reasonably suggest an optical *frequency shifting* device that utilizes an electrical signal (e.g. from a microstrip line) applied to an optically refractive material with a moving refractive boundary responsive to an applied traveling wave electrical signal (e.g. an active polymer). Such a device converts an input optical signal from one optical frequency to a different optical frequency by means of the described effect. The closest prior art is believed to be the cited **U.S. Patent Application Publication** to Grinberg et al and the cited **ELECTRONICS LETTERS** article by Udupa et al, both of which describe an active polymer used as an optical *modulator* by means of the effect described above. No optical frequency shifting is alluded to, however. The cited **U.S. Patent** to Chang et al also describes an optical device using an active polymer, but no optical frequency shifting is alluded to. The prior art documents submitted by applicant in the Information Disclosure Statement filed on December 5, 2001, are also relevant to an understanding of the presently claimed invention, but none discloses or suggests an optical *frequency shifting* device that utilizes the effect described above. Note the attached initialed copy of form PTO-1449.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (703) 308-4886. The Examiner's normal work schedule is Tuesday through Friday, 6:30 AM to 5:00 PM. Any inquiry of a general or clerical nature (i.e. a request for a missing form or paper, etc.) should be directed to the Technology Center 2800 receptionist at telephone number (703) 308-0956, to the technical support staff supervisor (Team 2) at telephone number (703) 308-3072, or to the Technology Center 2800 Customer Service Office at telephone number (703) 306-3329.
